ACSO PARIS · SOFIA

WEB Designer freelance - UX / UI design

15th march 2018

Our team

ACSO is an international digital agency based in France (Paris), Uk (London) & Bulgaria (Sofia). You will work closely with our Project managers & Development Team.

The perfect candidate is a passionate freelance Web designer with experience and specialised in UX / UI design. He or she must have a good level in english.

Your missions :

- Working alongside our project managers to make original creative tracks that meet the client's demands.
- Understanding the needs and objectives of the client to offer the best user experience possible in terms of design
- Design UI mockups
- Create new interfaces for the web and mobile applications from the wireframe to the final design
- Analyse & improve UX issues

This is a unique opportunity for somebody...
- with a significative experience in the digital industry or in a web agency (at least 2 years)
- with a strong experience with Mobile UX/UI Design
- who wants to work with a very nice international team!

What do we require?
- You are a perfectionist with attention to details : your PSD files are always neat and well organized !
- You are creative and love innovation especially in the digital field. You are curious and like to learn new things.
- You have a solid & up to date understanding of best practices and trends in web and mobile design (Android & iOS)
- You have an open personality with superb communication skills
- You are willing to work without close supervision and with a proactive goal-oriented attitude.

Also you have:

- a strong knowledge of design tools (Adobe suite, Sketch, Balsamiq and other webdesign tools…)
- a good knowledge of HTML & CSS (you are able to understand how your design will be integrated by our development team and thus you will create designs that are easy to integrate)

You speak
- ·English fluently
- French speaker is a nice-to-have

Portfolio
You have experience in making real products (mobile app & website) used by real people ! Please include a link to your portfolio in your application (we'd like to see the great interfaces you've designed !). An experience with e-business (Prestashop) is a plus
